

A cross-sectional diagram of a wall assembly. From left to right, it consists of: a stone masonry section, a brickwork section, and a concrete section. A horizontal red line represents a crack that starts in the stone masonry, passes through the brickwork, and ends in the concrete section. The crack is shown as a continuous line across the different materials.

verwijderen bestaande brugdeel en aanbrengen verharding van grasbetofortegels met opstapbanden

aanbrengen kiepapakel, gresklasse II kern van kiep

bestaande schotlen

aanbrengen kwetslab, rondom leiding

aanbrengen AVK Hofafsluiter, PN 6, met verlengde spindel o.p. (deels verwijderde vloerdeel)

b.o.b. duiker NAP+5,80m, PE DN 300mm bodem onder leiding uitsluiten met zand uitleid voorzien van kroosafvang
