

An aerial photograph showing a road intersection. A multi-lane road runs horizontally across the middle of the frame. On the left side of this road, there is a signalized intersection with a crosswalk and a stop line. To the left of the signalized intersection is a parking lot with several cars. Further to the left, there are some buildings and more parking spaces. On the right side of the horizontal road, there is a roundabout (curb cut) that allows traffic to turn right without crossing the main road. The road continues to the right of the roundabout. The surrounding area is mostly grassy with some trees and a few buildings.
