

Verklaring

The diagram illustrates a cross-section of a concrete column. The outer dimensions are 400mm x 400mm. The central core has a diameter of 60mm. Reinforcement bars are shown in various colors: blue, red, yellow, and orange. A vertical dimension line indicates a height of 250mm from the bottom of the column to the top of the reinforcement. A horizontal dimension line shows a width of 150mm. A note specifies that the outer dimensions are 400mm x 400mm.

Aanbrengen duiker befon $\varnothing 50$ mm
b.o.b. 4, 80-4, 70+, =12,0 ml
Aanbrengen uitstrooivoorziening
bestaande uit gemetselde keerwand

An aerial map showing a residential neighborhood with numerous buildings and streets. Overlaid on the map are several colored areas and lines, likely representing property boundaries or specific zones. A prominent red rectangle highlights a cluster of buildings in the lower-left portion of the map. Other colored areas include green, blue, purple, and pink, which appear to delineate different lots or parcels. The map also features a network of roads and some larger green spaces.
