Opmerking:

Bovenstaande tekeningen geven de grenzen van de afmetingen aan van de windturbines.
Tussenliggende afmetingen zijn mogelijk.

De beeldbepalende kenmerken van een windturbine zijn de as-hoogte, tiphoogte en rotordiamer.

Deze tekening is niet bedoeld om de vorm en afmeting van de nacelle/gondel en de mast vast te leggen.

Diepte en hoogte fundatie afhankelijk van grondonderzoek en type windturbine (definitieve fundatieontwerp).
Maaiveldhoogte t.p.v. windturbine.
Maaiveld nader te bepalen
