

## **Re-Teck reverse supply chain management BV(RE-TECK) Telecommunication Material Acceptance Policy**

---

Electronic discard is one of the fastest growing segments of today's world. Recycling raw materials from end-of-life electronics is the most effective solution to the growing e-waste problem. Most electronic devices contain a variety of materials, including metals that can be recovered for future uses. Re-teck does dismantling of electronics products and provide best reuse possibilities, intact natural resources are conserved and air and water pollution caused by hazardous disposal is avoided. Additionally, recycling reduces the amount of greenhouse gas emissions caused by the manufacturing of new products.

### **1.0 Material accepted by Re-Teck**

#### **1.1 Telecommunication Material**

**1.1.1 Re-teck. accepts telecom material from OEM's generated in the production faults, customer return products and not repairable, and failed in factory testing and damaged in the handling.** Re-Teck's waste acceptance practices and policies are based upon global policy, and local laws followed for e-waste.

#### **1.1.2 Telecom material including, but not limited to:**

1.1.2.1 Mobile communication equipment (Indoor and outdoor base cabinets), radio modules, combiners, TMA, controller boards, Main boards, power supplies, cables, Antennas and accessories, Router, Servers, switches, Transmission equipment, Mobile Phones, Mobile phone accessories, tablets, laptops etc.

### **2.0 TELECOM MATERIAL ACCEPTED BY RE-TECK ONLY WITH PRIOR CHARACTERIZATION AND APPROVAL**

**2.1** Telecom Material which has been characterized by Original equipment manufacturer and criteria to accepted the telecom material following approval by Re-Teck according to the Re-Teck Material Acceptance Protocol. A list of all equipment and devices with part number, manufacturer name, and trade or brand name for each product is necessary for material characterization and approval by Re-Teck. *Re-Teck, does not accepts any other hazardous waste.*

### **3.0 NON-CONFORMING TELECOM MATERIAL NOT ACCEPTED BY RE-TECK**

**3.1** The supplier shall not tender and Re-Teck, shall not knowingly accept or collect for transportation any container which:

- a. is not sealed and properly labelled;
- b. is punctured or materially damaged;
- c. is overfilled or overweight (see below);
- d. contains anything other than electronics waste;
- e. contains radioactive materials
- f. Containing Lithium Ion Batteries.

**3.2 Re-teck does not accept any Hazardous Waste including, but not limited to:**

- 3.2.1 Materials contaminated with chemical and biological agents
- 3.2.3 Chemicals, paints or solvents
- 3.2.4 Mercury bulbs

**From time-to-time, a load of materials may contain an example of the above materials. Upon receipt and recognition, Re-Teck will act quickly to inform the shipping party of the infraction and agree upon the next steps. Storage time will be kept to the minimum. As required by all federal and or local regulation(s), the disposal of these material will be performed by licensed agencies.**
