Katen in meters en materiaalmaten in millimeters, tenzij anders vermeld.
Polenaten in meters t.v.v. N.A.P.

Here following a regular use "regular" meaning "frequent" and "order" meaning "to get" or "to have" (not "eat") can also be used. For example, "golepord" (a leopard) is an animal that we can get and we can use only one cat, but we wish to eat it. This is also possible.
