The diagram shows a side view of a shower enclosure. Key components and dimensions include:

- Dimensions:** Total height is 3100 mm; total width is 3400 mm. The shower pan area is 1800 mm wide and 1000 mm deep.
- Labels:**
 - luchtafvoer**: Air outlet at the top of the central panel.
 - druppelvanger**: Drip collector located above the shower pan.
 - spiegels**: Mirrors mounted on the wall panels.
 - douchewater**: Shower water supply area indicated by cross-hatching.
 - watert Gordijn**: Water curtain/glass partition on the right side.
 - luchtaanvoer**: Air intake opening on the right wall panel.
- Details:** A door hinge is shown at the bottom center where the two main panels meet. Arrows indicate airflow paths from the intake to the outlet.
