

Default description

LV Trench

The diagram illustrates a cross-section of an LV Trench. The trench is 250mm wide and 600mm deep. The depth is marked with a vertical scale on the left: 100mm, 200mm, 300mm, 400mm, 500mm, and 600mm. The trench is filled with sand, indicated by a yellow box labeled 'Sand' with an arrow pointing to the sand area. A yellow line at the top of the trench is labeled 'Warning Tape' with an arrow pointing to it. Three colored circles (green, purple, and purple) are positioned at the 400mm depth mark within the trench.

3x6mm ²	Power cable from TS. X
1x8	Fibre optic cable from TS. X
>10mm ²	Earthing from Module pole
